dustindowning.main@gmail.com
Austin, Texas, USA

LIFE PHILOSOPHY

"In my walks, every man I meet is my superior in some way, and in that I learn from him."
-Ralph Emerson

EXPERIENCE

Technical Operations Manager

Mango Technologies

05/2017 - 09/2017 Palo Alto, California, USA
<https://www.clickup.com/>

Creating ClickUp, the productivity platform, built out of frustration with project management software.

- Review designs, plan development team's schedule, manage progress, oversee QA and testing.
- Develop front-end features in Angular4.
- As a right hand man to the CEO and a utility player to the team I wore many hats such as scrum master, web analytics engineer, technical support engineer, and growth hacker.

Software Developer

Layr Consulting

06/2015 - 03/2017 Austin, Texas, USA
<http://www.layrconsulting.com/> (Aquired 2017)

Technical Consulting and Custom Software Solutions

- Created robust API for complex system used to manage 6000+ users, 1500+ organizations, advertisements, newsletters, and a national conference tools for a nationwide trade association.
- Developed Ruby on Rails and AngularJS SPA for forecasting labor availability for the Global Capital Construction industry. Clients including Exxon Mobil, Honda, DuPont, Dow Chemical etc..
- Served as DBA for multi-billion row MySQL database
- SCRUM master, leading Agile team with a 2-week release schedule using TDD
- Developing technical requirement, creating mock designs, communicating expectations, developing the product, presenting demos, and retaining finish products.

Student Worker Systems Administrator

Texas State University: Core Systems

07/2012 - 09/2015 San Marcos, Texas, USA
<http://www.txstate.edu/>

Configured, deployed, and supported any and all university department's custom needed services as well as any core business services such as SAP.

- Maintained reliable and effective hardware at Texas State University's three main data centers containing around 200 servers.
- Developed and maintained a customized inventory system with ticketing capabilities for the hardware across all data centers.

ACHIEVEMENTS

BS - Computer Science

Graduated from Texas State University while working and doing internships.

Published Research Paper

Worked with Dr. Komogortsev and on eye-tracking research that was published by CHI.

Former President of Mu Sigma Nu

Recruited and educated 30+ members, managed \$50K budget, lead weekly officer and chapter meetings
